Sara's 1st Walk for Epilepsy

It was a beautiful day on the SUNY New Paltz Campus! We had hundreds of people attend what became my 1st Annual Walk for Epilepsy.

It took many months of planning but with the help of ESSNY, The State University of New York at New Paltz, my family, friends and my great community the walk was an over whelming success! Local radio and newspapers also covered the event which helped me on my mission to break the stigma surrounding epilepsy. We are just like you and we can do anything you can do. Epilepsy is not who I am.

We raised over \$15,000.00 that day, all of which stayed locally, providing services and support for individuals with seizure disorders.
