Contacted by the Montel Williams Show  
Because of my out reach to make others aware of what Epilepsy is, I was contacted by the Montel Williams Show. I went down to the city and met with the shows staff. I also taped a segment for a show that was being filmed on the sound stage. The show was titled 'Chicken Soup for the Soul'. I did a reading from the Chicken Soup for the Pre-Teen Soul which was going to be used during the taping of the next show. While at the studio, I got time to talk with the production staff. They were very nice and said they were very interested in doing a segment on my story for a future show. I tried to not get my hopes up, but it would be very exciting! The woman I spoke to most, Kimberly, was great!!! If your reading this Kimberly, thanks for being so friendly!!!

Regrettable, I have not heard back from them.
