The Ulster County WOW Awards Dinner

I was honored by Ulster County New York with the WOW award for Meaningful Community Involvement for all my hard work in my community with my walk, and School Community Service.

I was nominated by my school social worker, Mari Lacon.

Her nomination letter talked about my dedication and hard work as well as my resourcefulness in organizing my first walk. She also wrote about my work with the school community; my starting a support group for students with epilepsy and another group for asthma sufferers. Ms. Lacon also discussed that I was chosen by my peers to be a peer mediator/conflict manager within the school to help students solve their problems through peaceful, win-win solutions.
